before.

He was asked what he and the Northern people generally thought of Mr. Cleveland's recent address in New York touching the education of the negro and the attitude of the North toward the negro and the Southern White. He replied without the slightest hesitation:

"Mr. Cleveland's statements met with our entire approval," said Mr. Ogden.

Then he continued:

"Mr. Cleveland said some things which I thought might be open to discussion in parts of the country, but in the main his exposition of the matter was as sensible and sound as any I have seen. It met with the approval of the sensible whits people of the North, and of the sensible colored people, too," he added.

## AWARDED TO VIRGINIA THE DIAMOND

Not Played to Finish.

CAPTAIN WAS OBSTINATE

Refused to Accept Decision of the Umpire and Broke Up the Game. Virginia Had Two Men on Bases and One Out

CHARLOTTESVLLE, VA., April 21.In the last half of the second inning tain Carlin, of the Dickinson nine, after two slashing singles had been made off his delivery, refused to accept a decision made by the umpire and the contest was thereupon awarded Virginia, 8 to 0.
Pritchard, the Virginia twirler, was at bat and was struck by an incurve on the

bat and was struck by an Incurve on the right arm between the elbow and shoulder. Pritchard started to the initial bag, whereupon Captain Carlin threw down his glove and defiantly proclaimed that unless the decision was reversed the game would be stopped.

The remaining Dickinson players kept their positions, waiting for the game to proceed, but their captain, after walking leisurely around the dlamond, finally went to the bench, where his obstinacy could not even be tempered by the Dickinson manager. Neither side had scored. When the dispute occurred Virginia had two men on bases and one out. Pritchard, who has not lost a game this season, had struck out two of the opposing hatsmen. The gight hundred spectators were refunded.

### FINE BALL GAME

It Was Forfelted to Richmond College by 9 to 0.

The game pulled off yesterday afteroon between the base-ball teams of Richmond and William and Mary Colleges proved very interesting for all concerned the disinterested spectators enjoying a fine exhibition of college-boy enthusiasm not to mention the fair partisan enthu-siasts who shouted themselves hourse. The game was forfeited to Richmond Col-

lege in the tenth inning.

The first three innings resulted in goose eggs for both sides and the game with dmost no errors was being voted a fine In the fourth inning the "Spiders" sent

two men across the home plate and again two in the fifth, making the score 4 to 0. The sixth inning was without result as to score. In the seventh inning his lack of practice began to tell on his lack of practice began to tell on Pitcher Tyler and three of the visitors crossed the plate for score, but with great confidence Captain Staples again sent him into the box in the eighth in-ning. His heroic efforts, however, were powerless to prevent two more of the valters from scoring, and the score was 5 to 4 in favor of the Williamsburgers. For the ninth inning, both sides settled 5 to 4 in favor of the Williamsburgers.
For the ninth liming, both sides settled down to work. This time good luck was with the home boys and amidst intense excitement one of them crossed the plate, tying the score. Their partisans were now in ecstasy, the gray-haired minister who sat in the bleacheries shouted like a school boy and the professors flung their wanted dignity to the winds. This was increased when Mr. Sandford, the glant "second," relieved Mr. Tyler in the box and retired the visitors in one, two three order.

With an even score and great excitement the teams entered upon the tenth inning. Luck and good batting were with the Richmond boys. With three men on bases, none out, Manager Hodges, for William and Mary kicked on a decision of the umpire and retired his team from the field. Umpire Finnigan thereupon declared the game forfeited to Richmond College by a score of 9 to 0.

Youlsey Recalled for Further Cross-Examination. (By Associated Press.)

(By Associated Press.)
FRANKFORT, KY., April 21.—Henry
Youtsey was recalled for further crossexamination in the trial of James Howand to-day, Responding to questions
as to negotiations with Dr. Johnson to
kill Gepbel, Youtsey said he went to see
Senator Deboe and told him Johnson and
others were willing to do it. Senator
Deboe according to witness, redded that thers were willing to do it. Senato. Deboe, according to witness, replied tha with Taylor to retain him in office, and it would not be necessary to kill Goebel. Deboe said it must not be done. Witness went back and told Johnson what Deboe said, Johnson told him not to pay any attention to Deboe, but to go and see what Governor Taylor said about it. He went to see Taylor and told him what Johnson said and Taylor raised no objection to the plan of shooting from the Secretary of State's office.

Captain Cunningham Thinks, However Base-Ball Can Be Made to Pay. (Special to The Times-Dispatch.)

NORFOLK, VA., April 21.—Captain E. Harvey Cunningham, the local base-ball Harvey Cunningaam, the local bases and magnate, referring to the report that Norfolk would be in a four-city league, which is forming, said he had not been advised that base-ball was to be revived here, but thought with evenly matched teams the game could be made to pay easonably well.

teams the game could be made to pay reasonably well.

"You can't run a big league now as cheap as ten years ago," said Captain Cunningham. "When 'Doc' Somers had the Norfell: team in the old Virginia League, one of his best men, Harry O'Hagan, received \$75 a month, and the player had to pay all his expenses. Now they are Baying players a little more. The fact of the matter is, that there is no available timber at the present time for players in the minor leagues, and it you wish to ruh a small feague you must get the town lot boys."

Captain Cunningham was in base-ball for several years. He has had, enough of the game and is now watching the other fellows.

State Female Normai School.

Editor of The Times-Dispatch:
Sir,—As president of the Board of Trustees of the State Fermale Normal School at Farmville, I thank you heartly for your editorial of the 18th instant. The trustees naurally take grea interest in the school and are proud of the fact that it has grow nand prospered under their management and that it is now recognized by all that the school is doing a great work for the public school system of the State.

The efficiency of the public-school system of the State requires that well-trained teachers be employed and as the salaries paid are necessarily small, we have to look to the young women of the State to do the teaching in the public schools. The school at Farmville is the only school Editor of The Times-Dispatch:

ed teachers be employed and as the salaries paid are necessarily small, we have to look to the young women of the State to do the teaching in the public schools. The school at Farmville is the only school provided by the Elate where they can get this training, and it seems to me that this school should be properly equipped and maintained. A small appropriation was made by the State to establish this school in the beginning, and the trustees have done everything in their power, by judicious use of the money appropriated, to increase the capacity of the school. But the condition of things at the school now requires an increased annual appropriation and an additional appropriation for enlarging the buildings to accommodate the increased number of students. The fifteen thousand dollars annual appropriation enabled us to provide a sufficient number of teachers for two hundred and ten students, not including the children in the training school, and it is impossible for the present number of teachers to instruct so large a number as they should be. The present dilling-room was intended to accommodate one hundred and eighty students, and we now have two hundred and twenty-five crowded into it. There are four girls in every sleeping-room in the buildings and there are at least seventy-five students who had to get board with private families in the town of Farmville, and it is submitted that the president of the school cannot give proper supervision to those students who board outside of the institution, The trustees have early asked for a sufficient sum to enable them to correct the evils named and to properly supply the school outside of the institution, The trustees have early asked for a sufficient sum to enable them to correct the evils named and to properly supply the school outside of the institution, The trustees have asked on properly supply the school outside of the institution of the young men of the State and cuty stips.

The North Approaching.

"The most significant thing," says the Chicago Record-Heraid, "about the speech of Henry Watterson before the Hamilton Club, of Chicago, on Thursday night was the fact that his utterances were vigorously applauded in a Republican gathering. In speaking of the race question he declared that after thirty years of cobservation, experience and reflection he was forced to agree with the Secretary of War that negro suffrage is a failure, to declared, because the of War that negro suffrage is a failure, Ir is a failure, he declared, because the Southern blacks are not equal to it and because the Southern whites will not

because the solution whites will not have it.

"The presumption that all who applauded thereby assented to the speaker's utterances would not be justified. But there is little doubt that the most of his hearers were quite willing to endorse the proposition that suffrage has not solved the negro problem, and that the problem is one pre-eminently of the South, to be adjusted upon the basis of the South social and economic conditions and necessities. To this view the intelligent sentiment of the North is rapidly approaching."

Statistics have just been published in France which show that the government, which has a monopoly of the tobacce business, sold during the past year something over 2,000,000 kilogrammes weight of clgars and 1,800,000 cl cigarettes, the quantity of tobacce disposed of amounting to about 34,00,000 kilogrammes. The inhabitants of France smoke annually at the rate of a little over two pounds of tobacce per head, with an average expenditure of 11 francs for each. But addition to the narcotic, varies in different localities. For instance, while the population of the Department of the Nord contrives to get through up-year.
